

I strongly appeal that "having forced young women to become sex slaves during WWII" is propaganda created by Koreans and the CCP (Chinese Communist Party), and that it is fiction entirely trailed with forged claims.

You will be misleading students; hate, injustice, lies and discrimination towards the Japanese people and to the world.

To brainwash school children who do not know anything about wars, is a **CRIME**.

Comfort women's testimonies are all fantasy, making ugly stories to excite people's sympathy. What they want is only Money.

### **Don't you think it STRANGE?**

1. If such ugly stories told by comfort women were true, **why did they not say a word after the war was over?**

It started in 1992 (47 years after the war, when almost all soldiers passed away), some Korean spies approached a Japanese politician, letting him hear some comfort women's story. He mistakenly believed them ,**apologized without Cross Examination and gave some money.**

When Koreans knew that Lies became Money, the number of claims increased to 200,000 now. (CCP say 400,000 now!!)

2. How did the Japanese military abduct 200,000 girls in force? Where is the Evidence? One Japanese researcher went to the

Korean Island where a prostitute gave testimony. "I was forced to go on a truck by Japanese". The villagers said,

"We had never heard such stories. If it happened, Korean became violent against Japanese. Korean men has pride. "

3. At the Japan-Korea Annexation era (1910-1945), Korean policemen and Korean officials were working with Japanese

government officials. Didn't Korean policemen, fathers, brothers stop their daughters being coerced into being sex slaves?

So far, there was no testimony from Korea who saw the incident of abduction.

4. About 60% camp flowers were Japanese. Even today, there was not even one claim from Japanese war flowers.

5. If it is true that the number of 200,000 were abducted and became sex-slaves, it means total Japanese soldiers had no time to go out to fight. They had to stay in brothels and did sex at least 7 women in one day. Can you believe this?

**FACT**

1. Camp-flowers existed in any wars (legally). They were prostitutes being paid by the Japanese military, more than 10 times the salaries as that of soldiers.

2. Japanese military conducted very strict punishment to the soldiers who participated in sexual acts outside brothels and sometimes gave the death penalty.

3. Strict examination was enforced against brothel owners and health care was conducted thoroughly by the Japanese army.

If girls were abducted from somewhere and forced sexual acts, Korean brothel owners had to be blamed

Prime Minister Abe apologized (on Dec.28,2016 in the Korea -Japan Agreement) ONLY to tell that Japanese Army could not control perfectly to the Korean brothel owners [wrong-doing.at](http://wrong-doing.at) the war time.

I believe in your fair intelligence and common sense to accept the facts and withdraw tremendously dangerous and currently one-sided decision to teach students in California schools.

From a concerned citizen who holds strong to justice and fairness for the peace of the world.
